Subject: Introduction of NARLabs in Taiwan.

Dear colleagues,

We are delighted to introduce the National Applied Research Laboratories (NARLabs) Talent Programs and International Internship Program, funded by our National Science and Technology Council. This program offers exceptional research opportunities for international researchers and students, with the aim of fostering research collaborations between NARLabs and esteemed colleges, universities, and research institutions worldwide.

We invite your scholars and master or PhD students to participate in the prestigious programs, which focuses on research areas such as Earth & Environment, Information & Communication Technology, Biomedical Technology, and Science & Technology Policy. By joining the programs, participants will not only contribute to cutting-edge research but also receive financial support from National Science and Technology Council in Taiwan.

Additionally, we warmly welcome scholars from your university to visit Tamkang University while they are conducting research at NARLabs. This visit will provide an excellent opportunity to strengthen research connections, foster collaboration, and facilitate knowledge exchange between our universities.

Detailed information regarding the NARLabs programs including the application process and requirements, please find the links as below. We kindly request that you share this information with your colleagues and students who may be interested in pursuing this unique research opportunities.

NARLabs' International Internship: <https://shorturl.at/cswR4>

Thank you for your ongoing support. We look forward to deepening our partnership through the NARLabs programs and welcoming researchers and talented students from your esteemed university.

Sincerely,

Dr. Chien Mu Yeh

Dean, Office of International and Cross-Strait Affairs
