

Collecting courses for virtual mobility (for winter semester 2023/2024)

Courses to be collected

There are two types of collected courses.

- 1) The 4EU+ courses open for virtual mobility (category 1) – accredited at CU, created under alliance cooperation, for example within the educational project and open to all 4EU+ students.
- 2) The 4EU+ shared courses (category 2) – taught already at Charles University, that fulfil all conditions stated below, and their teachers are willing to accept students from 4EU+ universities.

The process of collection

The 4EU+ faculty coordinators are responsible for spreading the data for collection. The collection is done directly in SIS by ticking “Virtual mobility” in the course description, selecting one flagship and/or at least one transversal skill (under key competences) and completing all information stated below. Courses without flagship and/or transversal skills will be considered “open courses” (category 3). **The deadline for collection is 15th July.**

Later, all courses will have to be approved by heads of departments. After the approval, all courses will be published on the 4EU+ website and in September, students of all 4EU+ universities meeting the conditions can apply for them.

Conditions of courses

- 1) All course has to be accessible virtually (lectures, seminars, materials, examination, presentations...).
- 2) The course can belong to one of the four flagships and/or develop one or two transversal skills (see below).
- 3) The course is open without any cost to the 4EU+ students.

Flagships

1. Urban health and demographic change
2. Europeanness: multilingualism, pluralities, citizenship
3. Digitization, modelling, transformation
4. Environmental transitions

Transversal skills

To meet the transversal skill, it should be stated as one of the main learning outcomes of the course.

1. Multilingualism (language and linguistic courses)
2. Data literacy
3. Critical thinking
4. Entrepreneurship
5. Social engagement

Information about the course

- Title
- Code
- Guarantor
- All lecturers
- Faculty, department
- Credits
- Language of instruction
- Flagship and/or transversal skills
- Capacity
- Examination
- Minimal requirements, prerequisites, conditions for selection and enrolment of students
- Virtual mobility tag
- **Schedule (dates and times the course is taught)**
- **Link to LMS (moodle) if available**

This information as well as the complete syllabus has to be in English or the language of instruction.

Umbrella LMS

Shortly, the connection between the learning management system (LMS) Moodle of partner 4EU+ institutions will be created. The platform, called umbrella LMS, will enable 4eu+ students to access courses in Moodle of partner 4EU+ universities via their home university credentials.

When the platform is fully operational, teachers from Charles University will be contacted by the e-learning support centre, and their courses will be streamed to the platform. **Because of that reason, we highly recommend using the (dl1, dl2, dl3, dlcv, dlk, mooc, moodle.cuni) installations.**
