

Monday, 07 February 2011

Dear Students,

***The University of Edinburgh PG Virtual Open Week — MSc in High Performance Computing***

As you may know, EPCC at the University of Edinburgh offers a 1-year taught postgraduate Masters Degree, the MSc in High Performance Computing (HPC). This well-established programme provides an excellent grounding in HPC technologies and their practical application. It will appeal to all students from physical sciences, computer science, engineering and mathematics who have a keen interest in computing and would like to learn about HPC and parallel programming.

**A NUMBER OF PSAS STUDENTSHIPS ARE EXPECTED TO BE AVAILABLE FOR ELIGIBLE UK/EU STUDENTS.** Full details will be available early in 2011. These studentships will be awarded on the basis of academic merit.

The MSc website ([www.epcc.ed.ac.uk/msc](http://www.epcc.ed.ac.uk/msc)) tells you quite a lot about the MSc in HPC, and a little about the University and the City of Edinburgh. We would be delighted if you would accept an invitation to the **Postgraduate Virtual Open Week from the 21<sup>st</sup> to the 25<sup>th</sup> Feb 2011.**

This would give you an opportunity to join us in live chat rooms and virtual spaces where you can see some of what the University of Edinburgh and EPCC have to offer, discuss career opportunities, and also to talk to some of our staff and current students about studying the MSc in HPC in Edinburgh.

We offer two sessions for the MSc in HPC during the PG Virtual Open Week:

***Monday 21 Feb 14:00 -15:00 GMT  
Thursday 24 Feb 12:00-13:00 GMT***

In addition, there will be a number of 'drop-in' sessions throughout the week hosted by some of our student service departments, including Visa & Immigration, Accommodation, Careers and Scholarships & Finance.

For further information and to book your place, please visit the following website:  
<http://www.ed.ac.uk/studying/postgraduate/open-day/virtual-open-week>

Please note that spaces are limited. Register as soon as possible for scheduled events to avoid disappointment. Booking will close on **Monday 14th February.**

As a world leading HPC training centre, we are always keen to talk to potential students. We hope you can join the Virtual Open Day to talk to us about any aspects of applying for the MSc in HPC.

If you have any questions about the MSc in HPC, we will of course be happy to address them. The best way is by talking to us; but do please feel free to contact us if you need advice more pressingly.

Yours sincerely,

**Dr Judy Hardy**  
MSc in HPC Director of Studies
